

What is the best path to clear skin?

I combine a topical regimen with a series of our medical-grade Hydrafacial or my signature "Heidifacial" to combat "maskne" and irritation.

Which procedures are best to have done in the winter?

Book body sculpting with Coolsculpting, Emsculpt and Emtone treatments now for a slimmer, more toned silhouette by spring.

What are the best nonsurgical neck treatments?

Combining Ultherapy, hyper-diluted Radiesse and topical Alastin to synergistically remodel collagen and elastin for smoother, tighter skin.

About

Dr. Heidi A. Waldorf

Patients travel from near and far to Waldorf Dermatology Aesthetics because of Dr. Heidi A. Waldorf's reputation for listening to patients' concerns, formulating a realistic treatment plan and delivering natural-looking results. Her goal is to achieve the "Benjamin Button Effect," based on the story of a man who ages backward. "I want my patients to hear, 'You look younger every time I see you,' not, 'What did you have done?'" Her definition of "younger" is the same for her patients as it is for herself: feeling confident and looking healthy, well-rested and effortlessly youthful. As a 56-year-old breast cancer survivor, Dr. Waldorf understands that life is not always easy, and that knowing you look good can go a long way to making you feel good. She combines this empathy with an Ivy League education and status as a global opinion leader to provide each of her patients with the very best treatment options.

"It's a privilege to help each patient reveal their best self."

Gradual Changes, Big Impact

For more than two years, Dr. Waldorf treated this 32-year-old patient with neuromodulators to relax her masseters and fillers in her midface, tear troughs and upper lip for a more balanced, vibrant appearance.

Details

Specialties
